RGC METAL FORMING

CAPABILITY STATEMENT

1,100 TONNE	3,100 MM	70 MM	80 NB
MAX PRESS FORCE	MAX ROLL WIDTH	MAX PLATE THICKNESS	MAX MANDREL BEND

From one-off bespoke products to large-scale projects and ongoing supply - RGC provides on time light and heavy-gauge metal forming, bending, and processing to the precision your requirement demands.

RGC Metal Forming forms and shapes steel, stainless, aluminium, and specialty items for manufacturers, fabricators, maintenance providers and OEMs across the country - scaled to suit, from a single bespoke component to ongoing production runs, backed by decades of proven, hands-on industry experience.

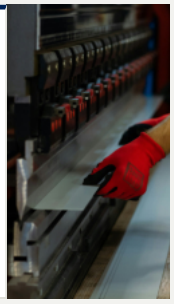

CORE CAPABILITIES

CNC BRAKE PRESSING

1,100T / 10.0 METRES

5 x CNC press brakes up to 1,100 tonnes / 10.0m bed length. Precision forming of mild steels, stainless steels, Q&T plate, aluminium, boiler plate, sheet metal + more.

Up to 10.0m long | Up to 1,100 tonnes | Full CNC

CNC MANDREL BENDING

3.5" / 80 NB TUBE / PIPE / SHS

Precision CNC mandrel bending of steel, aluminium, stainless, copper (more) pipe and tube up to 3.5" / 80 NB. Common bends held ready for immediate dispatch

Pipe & tube | SHS | Reo Bar | Stock bends | Fast dispatch

CNC PLATE ROLLING

70mm / 3,100mm

Rolling up to 70mm thick and 3,100mm wide. Mild steel, stainless, Q&T plate, aluminium, boiler plate and sheet metal, rolled true.

3,100mm wide | Up to 70mm thk | CNC Precision

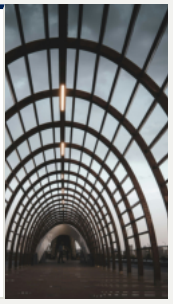

CNC/NC SECTION ROLLING

Curved TO SPEC

Angle, SHS, RHS, channel, column, beam, pipe, tube and extrusion — rolled to your project's exact requirement.

EA / UA | SHS / RHS | Pipe & tube | UC / UB | PFC | Extrusions

INDUSTRIES WE SERVE

Structural & Fabrication | Mining & Resources | Transport & Truck Bodies | Agriculture | Construction | Maintenance

Rail & Infrastructure | Renewables | Defence & Marine | OEMs | Architectural | Sheet Metal

INTEGRATED SOLUTIONS

A reliable, expert end-to-end service backed by decades of industry experience — one partner, start to finish.

LOGISTICS

In-house pick-up and delivery service, scheduled around your job — no third-party freight delays.

DRAFTING

In-house drafting and development team, taking your concept from first idea through to realisation.

HAVE A JOB TO QUOTE?

From a single one-off part to ongoing supply contracts - quotes turned around fast.
